Frontend React Developer

React Frontend Engineer with a strong foundation in web development and a focus on building user-friendly applications. Experienced in JavaScript and React.js, with some exposure to backend technologies including Express.js and MongoDB. Enthusiastic about contributing to a dynamic team and further developing my skills.

CORE PROFICIENCIES

- React
- Redux
- JavaScript
- TypeScript
- HTML
- CSS
- Bootstrap
- Tailwind CSS
- Vite
- Webpack
- Agile Development
- Git and GitHub

PROJECTS AND EXPERIENCE

• Plany | The Productivity Application   Jun 2024 - Now

Designed and built a productivity app facilitating task management through task lists and note-taking functionalities. Features included tasks creation with task prioritization and note-keeping. Utilized React for the front-end development, Redux for state management, and Tailwind for styles. Implemented responsive design to ensure accessibility across various devices.
Frontend Technologies: TypeScript, React, Redux Toolkit, TailwindCSS.
Backend Technologies: Nodejs, Express.js, MongoDB.

• Pro Sales | CRM   Dec 2023 - Jun 2024

Collaborated in the development of a customer relationship management (CRM) application to enhance sales processes and customer interactions. Contributed to integrating features for tracking sales, generating reports, and implementing authentication for secure user access. Utilized React for the frontend and Tailwind CSS for styling to create a responsive and user-friendly interface.
Technologies: React, TailwindCSS, RESTful API.

• Movieverse | Movies Library   Aug 2023

Developed a movie catalog app enabling users to explore, search, and view details of popular and top-rated movies. Implemented features for browsing, searching, and viewing detailed information about movies using React, Redux, and TMDB API. This involved structuring the app components, integrating API endpoints, managing state using Redux, and ensuring responsive design for a seamless user experience.
Technologies: React, Redux Toolkit, Bootstrap, TMDB API.

• Tableautto | Art Website   Jan 2023

Developed a personalized art and home decor website, allowing users to upload and customize their photos onto tableaux for unique artistic creations. Implemented frontend functionalities using pure HTML, CSS, and JavaScript, ensuring an intuitive and engaging user interface. Employed responsive design principles for optimal user experience across various devices.
Technologies: Pure HTML, CSS, JavaScript.

EDUCATION | CREDENTIALS

• Bachelor of Computer Science (Graduation: Jun 2024) Helwan University, Cairo, Egypt.
